

# Wall-mounted side-folding basketball backstop

Schelde Sports has a wide range of side-folding basketball systems. When not in use the system is folded sideways against the wall and secured in position. Each system is equipped with safety chains. Can be delivered with various types of backboards, and rings. Supplied with a protective backboard padding as a standard feature; height control with spindle adjustment can be added optionally. The projection of the backboard is adapted to the size of the hall and the position of the basketball court.

**Technical data:**
